SUMMARY

I am currently a Ph.D. student in the Department of at Iowa State University. Most of my research is focused on utilizing crop models, such as the Agricultural Production Systems Simulator (APSIM) to assess spatial and temporal variability of cropping systems. The goal is to assess the risk associated with different management decisions. There are several research areas that fascinate me. A short list of those would be: crop physiology, crop models, remote sensing, soil fertility, and statistical models.

EDUCATION

Ph.D., Crop Production and Physiology **July of 2025***
**expected graduation date*
Department of Agronomy
Iowa State University, Ames, Iowa, US

Minor in Statistics
Major advisor: Fernando Miguez

M.S., Crop, Soil, and Environmental Sciences **2020**
Department of Crop, Soil, and Environmental Sciences
University of Arkansas, Fayetteville, Arkansas, US

Major advisors: Larry Purcell and Trent Roberts
Thesis: Managing corn nitrogen fertility in Arkansas based on data from an unmanned aerial system

B.S., Agronomy **2018**
College of Agriculture "Luiz de Queiroz"
University of Sao Paulo, Piracicaba, Sao Paulo, Brazil

Major advisor: Jose Laercio Favarin
Thesis: Determination of the water potential threshold at which rice growth is impacted

RESEARCH EXPERIENCE

Graduate research assistant **2020 - present**
Department of Agronomy
Iowa State University
Ames, Iowa, US

Graduate research assistant **2018 - 2020**
Derpartment of Crop, Soil, and Environmental Sciences
University of Arkansas
Fayeteville, Arkansas, US

Undergraduate visiting scholar **2017**
Derpartment of Crop, Soil, and Environmental Sciences
University of Arkansas
Fayeteville, Arkansas, US

Undergraduate research fellow **2016 - 2017**

Derparment of Crop Production
University of Sao Paulo
Piracicaba, Sao Paulo, Brazil

Fellowships, Honors, and Awards

3rd Place in the PhD Poster Competition **2024**
Precision Agriculture Systems Community
San Antonio, Texas, US

Preparing Future Faculty Fellow **2024**
Graduate College
Iowa State University

Agronomy Teaching Fellowship **2023**
Department of Agronomy
Iowa State University

Outstanding Master's Student **2020**
Department of Crop, Soil, and Environmental Sciences
University of Arkansas

2nd Place in the master's division at Gamma Sigma Delta Student Competition **2019**
Fayetteville, Arkansas, US

Undergraduate Research Fellowship **2017**
The São Paulo Research Foundation (FAPESP)
Research title: Determination of the water potential threshold at which rice growth is impacted

Service and Offices held

Member of the Curriculum Committee of the Crop, Soil, and Environmental Sciences Major **2019**
University of Arkansas
Fayeteville, Arkansas, US

President of the Crop, Soil, and Environmental Sciences Graduate Student Club **2019**
University of Arkansas
Fayeteville, Arkansas, US

Vice president of the Crop, Soil, and Environmental Sciences Graduate Student Club **2018**
University of Arkansas
Fayeteville, Arkansas, US

Teaching Experience

Teaching assistant in Crop and Soil Modeling (AGRON 525) **2022 - 2024**
Iowa State University
Ames, Iowa, US

- This was a graduate and undergraduate level class with approximately 15 students
- Provided office hours to help with weekly assigments
- Developed and taught lectures on:
  - Soybean development response to temperature and photoperiod
  - Process-based crop model parameter optimization

Teaching assistant in Crop Development, Production, and Management (AGRON 280) **2023**
Iowa State University
Ames, Iowa, US

- This was an undergraduate level class with approximately 70 students
- Taught a lecture on "Brazilian agriculture"
- Provided office hours to help with weekly assigments
- Graded weekly assignments

Guest Lecturer in Soybean Production (CSES 3322) **2023**
University of Arkansas
Fayeteville, Arkansas, US

- This was an undergraduate level class with approximately 30 students
- Taught a lecture on "Soybean development response to temperature and photoperiod"

Teaching assistant in Soil Fertility (CSES 5114) **2020**
University of Arkansas
Fayeteville, Arkansas, US

- This was a graduate level class with approximately 30 students
- Provided office hours to help with weekly assigments
- Developed and taught lectures on:
  - History of soil fertility and crop growth
  - Plant essential nutrients
  - Nutrient mobility, solubility, and deficiency
  - Soil pH, salts, and lime requirement
  - Soil sampling methods
  - Plant and soil analysis
  - Soil test extraction methods
  - Fetilizer correlation and calibration
